REVIEW OF THE ONBOARDING PROGRAM AND FEEDBACK COLLECTION.

Throughout the 30-day program, it's essential to assign mentors or coaches to new salespeople for ongoing support and guidance. Additionally, continuous learning and development should be encouraged, as the automotive industry is constantly evolving.

After the initial 30 days, consider implementing ongoing training and professional development opportunities to help salespeople stay updated with industry trends and maintain their skills. This can include regular sales meetings, workshops, and access to online resources.
